ABOUT ME

The essence of my work is reading the world through patterns – in details and the big picture at once. As a Product & UX Designer and Digital Artist, I am driven by curiosity and continuous growth. The questions I ask don't just clarify ambiguity into structure – they regularly bring that spark when people realise someone is truly engaged. Moving between fact and intuition, I make sure users are actually seen.

EXPERIENCE

2020 – TODAY

(Freelance) Product Design

Clients – Bubora, DAILIA
